Benchmark Holdings plc

Strategic Review, Formal Sale Process and Commencement of Offer Period

Benchmark Holdings plc (“Benchmark” or the “Company”), is a market leading aquaculture genetics, nutrition, and health business, delivering advanced biotechnology products and solutions that enable the aquaculture industry to improve its productivity and sustainability, helping address the need for sustainable aquatic food to feed a growing global population.

The Company is a supplier of choice for aquaculture producers worldwide with market leading positions in genetics, early-stage nutrition and sea lice solutions and well invested infrastructure to support growth. The Company’s specialised mission critical products and solutions reflect decades of invested capital, IP and expertise, which the Board believes are very difficult to replicate.

The Company’s genetics strategy is innovation-led, employing a world-leading team of geneticists who apply the latest technologies on the Company’s four breeding programmes to deliver continuous genetic improvement in growth and disease resistance. In nutrition, through INVE, Benchmark delivers advanced nutrition solutions focused on the early stages of shrimp and marine fish production, which require specialist nutrition protocols and technical support, translating into attractive margins. The health business area addresses sea lice, one of the largest sustainability challenges for salmon farmers globally, through veterinary medicinal treatments.

Management actions over the last three years have delivered substantial revenue growth and improvement in profitability and cash conversion. Since FY20, Benchmark’s revenue from continuing operations has grown from £105.4m to £169.5m in FY23 and Adjusted EBITDA has increased from £15.5m to £35.5m. The Company is well positioned with a strong balance sheet and significant headroom to grow within its existing markets, as well as multiple potential avenues for expansion.

For the full year ended 30 September 2023, Benchmark delivered 7% revenue growth¹, 15% increase in adjusted EBITDA¹ and improved its operational cash conversion from 35% to 58%, demonstrating continued progress in the year despite challenging conditions in the shrimp sector, one of the Company’s core markets.

¹ Growth from continuing operations (excluding movements in fair value of biological assets)

The Board believes that the current share price materially undervalues the combined value of Benchmark's businesses and the long-term prospects of the Company, which may at least in part be due to the tightly held and illiquid nature of its ordinary shares.

As a result, having consulted with the Company's major shareholders, the Board has unanimously decided to undertake a formal review of the Company's strategic options (the "**Strategic Review**") including, but not limited to, a sale of the Company as a whole or alternatively the potential sale of one or more individual business units, to establish whether there is a bidder or bidders prepared to offer a value for the Company or its individual business units that the Board considers attractive relative to the Board's view of intrinsic value.

In this context, the Company has agreed with the UK Takeover Panel (the "**Panel**") that any discussions in relation to an offer for the Company may take place within the context of a formal sale process (as set out in Note 2 on Rule 2.6 of the Code) to enable conversations with parties interested in making such a proposal to take place on a confidential basis. The Panel has granted a dispensation from the requirements of Rules 2.4(a), 2.4(b) and 2.6(a) of the Code such that any interested party participating in the formal sale process will not be required to be publicly identified as a result of this announcement and will not be subject to the 28 day deadline referred to in Rule 2.6(a), for so long as they are participating in the formal sale process.

Parties interested in making a proposal should contact Benchmark's financial advisers, Evercore and Rabobank, using the contact details below.

The Company intends to conduct a targeted process and the first phase will include the provision of an information pack, following which interested parties will be invited to submit non-binding indicative offers. As a condition to participation in the first phase, parties will be required to enter into a non-disclosure agreement and standstill arrangement with Benchmark on terms satisfactory to the Board of Benchmark and on the same terms, in all material respects, as other selected parties. It is currently expected that a select number of parties will be invited to participate in a second phase. Further announcements regarding timing and procedures for the formal sale process will be made as appropriate.

The Board reserves the right to alter any aspect of the process or to terminate it at any time and will make further announcements as appropriate. The Board also reserves the right to reject any approach or terminate discussions with any interested party or participant at any time.

The Company is not currently in any discussions with any potential offeror relating to an acquisition of the issued and to be issued share capital of the Company. Following this announcement, the Company is now considered to be in an "offer period" as defined in the Code, and the dealing disclosure requirements summarised below will apply.

Shareholders are advised that there can be no certainty that an offer for the Company will be made or a sale of individual business units undertaken, nor as to the terms on which any offer or sale will be made.
